

LEAGUE COVENANT MAY NOT ASSUME CAMPAIGN ISSUE

Status Of Pact Will Be Determined By Political Means.

HOOVER FOR AMERICA

Action of Republican Convention To Govern Democrats.

Washington, May 7.—The Republicans at Chicago do, the Democrats at San Francisco won't; and if the Republicans won't then the Democrats will. Such is the admitted pre-convention policy of the followers of president Wilson.

That the league of nations will be the paramount issue of the campaign is by no means a certainty. It all depends.

Should Hiram Johnson win the nomination at Chicago, the Democrats at San Francisco, it is said, would select a standard bearer as much like Woodrow Wilson as they could find and make the fight on a strictly league or no league basis.

Hoover Like Wilson

On the other hand should Herbert Hoover find the colors of his party tied to his lance at Chicago, the league of nations would assume far less importance as a campaign issue, for the line of demarcation between the Hoover and the Wilsonian point of view would be much too faint for the average man in the street to see or care about.

Domestic issues would almost surely take precedence.

For it is now considered a certainty that the Democrats at San Francisco themselves will go on record as favoring the treaty "reservations which do not nullify" just as President Wilson has already done. And campaign audiences both sides agree, could scarcely be made fighting mad over the difference between this kind of reservations and some other kind of reservations equally subtle.

While the strategy of the Democrats is to wait for Chicago then to make their plans accordingly the problem is what will happen at Chicago? Each Republican Old Guard candidate has proved a disappointment in the state wide primaries, and Major General Leonard Wood, not an Old Guard man, will have pretty much the field against him at Chicago.

GERMANY STARTING UPWARD CLIMB SAY OFFICIALS IN CHARGE

Paris, May 7.—Germany has reached and passed her lowest point and has now begun the upward climb which is destined to place her once more among the foremost nations of the earth, according to Herr Mayer, German chargé d'affaires in Paris who has just returned from a trip to Berlin.

Herr Mayer returned from Germany with a decidedly optimistic view of conditions east of the Rhine.

"Germany has passed her lowest point and is now coming back," he said. "Coal production has been resumed on a large scale and has now reached the point where it was before the Kapp revolution. Our train service has been greatly improved and there is a marked better spirit among the workers."

Herr Mayer declared that he informed Premier Millerand that it would be impossible for Germany to decide until next year the amount she is able to pay the allies annually under the treaty.

Parliament has adopted a new taxation program but it is impossible to estimate the amount of revenue it will bring in before it is collected at the end of the financial year.

It is useless, according to Mayer, to expect that Germany can reach the point of fullest production until the allies fix the total amount if her indebtedness.

"We are ready to pay all we can but it is not possible to state the amount," he said.

CHIEF SEAPORT OF SOUTHERN RUSSIA HELD BY UKRAINIANS

London, May 7.—Odessa, the chief seaport of southern Russia was captured by Ukrainian troops a week ago, said a news agency dispatch from Paris today, quoting Lemberg advices.

Odessa has been called "the granary of southeastern Europe," and is of tremendous importance, not only to Russia but also to southeastern Europe. It was through Odessa that Russia formerly exported her enormous wheat crop. It was the fourth city in point of population in the Russian empire. The last census, taken in 1901, placed its population at approximately 500,000.

DISBANDED AIR FORCES

London, May 7.—Germany has agreed to disband her military air forces and destroy all except one air plane factory and one hangar, according to a news agency dispatch from Berlin today.

"MIRACLE MAN" CREDITED WITH CURES

Dr. Riley at work on a patient.

Dr. Joe Shelby Riley, author of several scientific books and cousin to James Whitcomb Riley, is called the "miracle man" in Washington because of his remarkable success in curing dumb or blind persons. It is stated that after just seven days of treatment he has restored the sight of George Folk, Ohioan and brother of ex-Governor Joseph Folk of Missouri.

BRITISH SHIP TO RESCUE ICE-BOUND RUSSIANS

SPRINGFIELD TO HAVE DAYLIGHT SAVING, IS PLAN

Special Meeting of Commission Called For Monday.

Springfield, O., May 7.—Clocks will be advanced one hour May 1st unless city commissioners undergo a change of heart between now and next Monday night. This action was the outcome of an informal meeting of the commissioners Thursday night, when it was decided to prepare emergency legislation to set the clocks ahead one hour, for passage at a special meeting Monday.

This change will put Springfield on the same basis of time as Columbus, Dayton and Cincinnati, but will make city time one hour faster than railroad and county time.

Some months ago the plan was opposed in Springfield because other towns were still on Central time.

Westcott's Plan

Mayor Westcott brought the subject to the attention of the commission. He explained he formerly opposed the change in time, but that he now favored it since the cities have changed.

Commissioner Beupain opposed the change at first on grounds that it would inconvenience the city's business with the county, but voiced no opposition when it was agreed to prepare legislation to advance the clocks.

Commissioner Houck did not express his opinion.

TURK GOVERNMENT BEGINS MOVEMENT TO SUPPRESS PARTY

London, May 7.—The Turkish government is openly avowing its determination to suppress the nationalist movement while at the same time secretly conducting negotiations with its leaders, according to a Constantinople dispatch to the Express today.

The Express correspondent at Constantinople learns that the great visier is endeavoring to reach an agreement with Mustafa Kemal, leader of the nationalists, so that the Turks can represent a united nation at the Paris peace conference.

London, May 7.—British authorities in Turkey have removed the sultan from Constantinople to Brusa, according to a Moscow wireless dispatch received at the admiralty today.

Brusa is a large Turkish city 57 miles southeast of Constantinople at the foot of Mount Olympus. Around Brusa are located the tombs of the founders of the Ottoman empire.

RAILROADS FILE INCREASE IN RATES

Washington, May 7.—All railroads west of the Mississippi river today formally filed with the interstate commerce commission proposals for advance in freight rates of 24 percent. Their brief declared such an increase necessary to increase by \$352,893,000 a year the minimum necessary to bring their net income up to 6 percent on a property investment of \$8,963,883,000.

WILSON WILL KEEP IN CLOSE TOUCH WITH CONVENTION

Washington, May 7.—President Wilson will keep in close touch with the Democratic national convention when it opens on June 28 despite the fact that it will be held in San Francisco, almost the farthest possible point in the United States from Washington.

The president will be in direct communication at all times with administration leaders at the convention, not only by direct telegraphic wires leading into the White House executive offices but also by a direct telephone line which will be set in order that he may converse from his study.

According to present plans the president will remain in Washington until after the San Francisco convention but should the plans be changed and the summer white house be established at some New England resort direct wires will be established to San Francisco.

CHILD IS "HOSTAGE"

Berlin, May 7.—The government commissioner of Pomerania has rearrested the six year old daughter of Major Bischoff, one of the chief figures in the Von Kapp revolt, who fled after the collapse of the venture. The child is being held as a "hostage" for the father's appearance.

CARRANZA FLEES MEXICO CITY; WILL MAKE LAST STAND IN VERA CRUZ

**WILL PASS REBEL
TERRITORY UNDER
GUARD TO OCEAN**

Mexican President May Take Refuge On American Ship.

**MAY RALLY FORCES
Part of Vera Cruz
Friendly To Federal
Forces.**

Washington, May 7.—President Carranza left Mexico City at 1 o'clock last night for Vera Cruz according to a message received today by the agency of the Sonora revolution here.

President Carranza is reported in the advices received here to have left Mexico City under escort of troops in command of General Candido Aguilar, his son in law.

The message received at the revolutionary came by way of Laredo, Texas, and was filed at 1 o'clock last night. It stated "at this hour President Carranza is leaving Mexico City for Vera Cruz."

A special train was arranged for the departure of the president, the message received here stated. The railroad between Mexico City and Vera Cruz are under control of rebels, but it is believed that President Carranza will attempt to run his train through.

Agents for the revolution here were of the opinion that rebel leaders would not attempt to stop the president from proceeding to Vera Cruz if assured that he was not taking large sums of money with him. Vera Cruz is still loyal to Carranza, it is believed that the president will endeavor to make a stand at the seaport capital. In case he should decide to flee the country entirely, he could undoubtedly find refuge on some foreign ship in the harbor. It was intimated today in official circles here that he would be received by any American warship to which he might apply for asylum, there being a well established precedent in the state department to this respect.

Both railway lines leading from Mexico city to Vera Cruz pass through the estate of Tlaxcala, which has formally declared for the rebels and is now under their control. Railway communication on these lines has been interrupted several times during the past two weeks.

BEGIN NEGOTIATIONS TO PLACE MEXICAN BANDIT WITH REBELS

El Paso, May 7.—Colonel Pinones, an agent of "Pancho" Villa conferred at Juarez today with liberal constitutionalist leaders, presumably to negotiate for the placing of Villa's army under the rebel standard. It is reported that General P. Elias Calles, commander in chief of the revolutionists already has received a letter from the bandit leader, offering his services unconditionally and naming as his whole desire that he "be not humiliated." The letter is reported to state that he seeks no personal advantages from the revolution, but is "fighting for the common people."

Revolutionary leaders stated today that if they succeed in overthrowing the Carranza government, Fernando Iglesias Calderon probably will be named provisional president of Mexico, pending the elections, in which General Obregon is expected to win. Calderon is an attorney in Mexico City.

WANT VETERAN TO BE CANDIDATE

Columbus, O., May 7.—Sergeant Charles B. Orwig, Mansfield, clerk in the adjutant general's department, is being urged by enlisted men, members of the 37th division, to become a candidate for the Democratic nomination for state treasurer.

Orwig is secretary of the 37th division association. He is a former newspaperman and lost a leg while fighting with the 146th Infantry in the Argonne forest.

REPORTS UNTRUE ALLEGED.

San Antonio, Tex., May 7.—Reports that Carranza has fled to Vera Cruz are denied in telegrams received at Laredo and other border points in direct communication with Mexico City, according to a special dispatch from Laredo, published in the San Antonio Express today.

Carranza is under constant surveillance of revolution agents and his escape without detection is impossible, the dispatch declares.

PROFITEERING SCORED AS MENACE TO NATION'S FUTURE; COSTS EACH FAMILY IN AMERICA \$240 PER YEAR

Washington, May 7.—Every family of the United States is paying a profiteering tax of \$240 a year as a result of the excess profits made by the combined corporations of the country during the war. W. Jett Lauck, consulting economist and former secretary of the war labor board, declared today before the federal railroad labor board. Labor as a class, he declared worse off now than during the war.

Instead of labor costs being the initial influence in forcing increases in the cost of living, he said, wage increases have lagged behind price increases.

Capital, on the other hand, he said, "has received a very much larger proportion of the income of the country and is profiteering on such a scale as to menace the nation's future."

"Viewed as a pure economic proposition in the light of economic history, no sane man can fail to realize that the present situation in the United States marks the gravest crisis the nation has encountered since the nation was threatened in 1860 and in the light of the easily obtained evidence no unprejudiced citizen can fail to place the burden of the responsibility upon the groups of capitalists and financiers who have seized upon the sufferings and sacrifices of a nation at war as the means of aggrandizement such as the world before has never known."

Appearing on behalf of the railroad workers in the "big four" brotherhoods and the unions affiliated with the American federation of Labor he presented a survey of prices, wages and profits containing startling charges of profiteering. This survey, he said, was the result of eight months research by experts and based on federal income tax returns and investigations of government agencies like the federal tariff commission, the federal trade commission and the bureau of domestic and foreign commerce.

HARDING'S LEAD OVER GEN. WOOD GIVEN AS 14,692

Official Count Shows Boyd Beats Daugherty By 959 Votes.

Columbus, O., May 7.—United States Senator Harding's official plurality over General Wood at the Ohio presidential preference primaries was 14,692 and William H. Boyd, Cleveland, Wood candidate, defeated H. M. Daugherty, Columbus, Harding's campaign manager, by 959 votes for delegate at large to the Republican national convention, according to the complete official returns received by Secretary of State Smith.

At the primaries, 87,505 Democratic votes were cast as against 239,223 Republican votes.

The Republican preferential vote was: Harding 123,257; Wood 108,565; Johnson 16,783; Hoover 10,467; scattering 151.

Republicans voted for delegates at large as follows: Herrick 131,190; Willis 121,942; Galvin 118,197; Boyd 107,449; Daugherty 106,490; Turner 105,945.

The Democratic preferential vote stood: Cox 85,838; Bryan 971; Hoover 232; scattering 369.

The vote received by the unopposed Democratic candidates for delegates at large was: Harmon 70,164; Campbell 69,129; Pomerene 65,563; Moore 60,633.

An expense account, filed with Secretary of State Smith by John H. Price, Wood's Ohio campaign manager, shows \$25,060.49 spent in Ohio. Of this amount \$25,060.50 was received from the Leonard Wood national committee. The money was spent for salaries, hotel bills and traveling expenses. Price stated that Wood national headquarters paid board bills and newspaper advertising bills.

HEAVY LOSSES ARE SUSTAINED BY OIL ISSUES IN MARKET

New York, May 7.—Selling continued at the opening of the stock market today resulting in losses of from fractions to over 6 points in nearly all the active issues.

Steel common dropped 3-4 to 95 1-4. Baldwin after selling up 10 1-2 dropped to 115 1-2. Crucible fell 6 points to 134; Bethlehem steel B 2 5-8 to 93 1-2. Republic steel 1 3-4 to 95 1-2.

The heaviest losses were sustained in oil issues, Mexican petroleum selling up to 181 at the start and then falling sharply to 176 1-4.

Pan American petroleum dropped 3 1-4 to 94 3-4 and Texas company 1 1-2 to 47 1-2. Royal Dutch rose 1 1-2 at the start to 115 3-4 but quickly lost this upturn.

Studebaker dropped 1 5-8 to 79 1-4 and Pierce Arrow one point to 58.

Losses of two points were suffered in American Woolen, Atlantic Gulf and U. S. Rubber. The railroad stocks showed fractional losses.

EXAMINATION HELD FOR POLICE POSITION

A civil service examination will be held Monday morning at which time applicants for the position of regular patrolman on the police department will be received.

When both candidates who passed the last examination, changed their minds and refused to take the position, the vacancy left when Chief Graham was promoted to succeed James M. Canaday as Chief, was unfilled. Patrolman Ed Wilkins has been filling the position since that time but he is not a candidate for the regular position.

Applicants are requested to be ready to take the examination Monday.

LINEMEN ON STRIKE.

Canton, O., May 7.—Linemen of the Ohio Power company, 12 in number, have gone on strike for \$1 an hour. All construction work is tied up.

POLITICS BEGINS ACTIVITIES WITH CONVENTION NEAR

Both Major Parties Whipping Plans Into Shape.

HITCHCOCK LEADER

Replaces Procter As Wood Manager Practically.

New York, May 7.—With the first of the big political conventions scheduled to open in Chicago just one month from tomorrow, things begin to whip up politically today around the various camps in the east.

The outstanding developments were these:

Democrats—Governor "Teddy" Edwards of New Jersey, who frankly wants to make the United States as wet as the Atlantic ocean came out into the open with his political affairs and announced himself a sure 'nough full fledged candidate at San Francisco.

A fight in the New York delegation over the "unit rule" is threatened. And it will be carried right to the floor at San Francisco, according to opponents of Charles Murphy, the Tammany boss. Friends of William G. McAdoo are behind the fight.

Republican—Frank Hitchcock, reputed to be the most astute political mentor of either party, assumed charge of the Wood campaign, displacing for all practical purposes at least, Col. William C. Procter, the Cincinnati soap manufacturer, and chief financial angel of the Wood drive.

LITTLE CHANGE IN MANNER OF RULING IRELAND

Leaders Do Not Hope For Better Things From England.

Dublin, May 7.—Leaders of the Irish land movement do not hope for better things with the changing of the British administration in the country. They professed today to see no lessening of the iron grip which the British keep on things Irish.

The coming of Sir Neville Maccready as commander of the British military forces and of Sir Hamar Greenwood as the new chief secretary, has been hailed as the inauguration of a more lenient policy toward Ireland. Today Arthur Griffith, M. P., the founder of the Sinn Fein movement, was asked whether he could see a hope of settlement or compromise in such a policy.

"There has been no change in the methods of the British government of Ireland," he replied. "If American newspapers have been led to believe so then they have been victimized by English propaganda."

Recent "Outrage"

"The most recent action of the English militarists who rule Ireland is the arrest of the Sinn Feiners of Ulster, who were engaged in looking after the county council election."

"There are 35 counties in Ireland, nine of which are in Ulster. There have been no elections there in six years; consequently the present council is not representative of the feelings of the community. Four Ulster counties in elections now proceeding will be unionist; four will be anti-unionist and the ninth, county Louth, from which I was elected to parliament, would give the anti-unionists a majority if the county was not being 'gerrymandered' to give the unionists control."

HARDING'S ACTION IN POLITICAL SPHERE AWAITED ANXIOUSLY

Columbus, O., May 7.—"If Senator Harding doesn't file for renomination reasonably soon, we will take it to mean he doesn't intend to do so and we'll start to petition Colonel William Cooper Procter, of Cincinnati, to run for United States senator from Ohio."

This is the statement made here by John H. Price, Ohio manager of Major General Leonard Wood's campaign for the Republican presidential nomination.

"On the other hand," Price continued, "if Harding does file, we'll consider it a withdrawal from the presidential race and we'll go after the Harding delegates elected last week."

"I think we could induce some of them to support Wood on the first ballot and most of them on the second ballot. Some of them were elected in districts that voted overwhelmingly for Wood on the preferential ballot. But, if Colonel Procter won't be a candidate this year, he certainly, will be two years from now when Senator Pomerene's term expires."

That Wood will be nominated on either the first, second or third ballot at the Chicago convention was the claim made by Price.

William E. Halley, at Harding's state headquarters, didn't believe Harding delegates would interpret filing for renomination for the United States senate as withdrawal from the race for president.

LUEDENDORFF RETURNS

London, May 7.—General Luedendorff has returned to his residence in Victoria strasse after a mysterious five weeks' absence. His whereabouts have been unknown in Berlin and it is popularly supposed that he has been in hiding for fear of investigation in connection with the Von Kapp episode.

LEAGUE COVENANT MAY NOT ASSUME CAMPAIGN ISSUE

Status Of Pact Will Be
Determined By Political
Means.

HOOVER FOR AMERICA

Action of Republican Con-
vention To Govern
Democrats.

Washington, May 7.—The Republi-
cans at Chicago do, the Democrats at
San Francisco won't; and if the Rep-
ublicans won't then the Democrats
will. Such is the admitted pre-con-
vention policy of the followers of
President Wilson.

That the league of nations will be
the paramount issue of the campaign
is by no means a certainty. It all
depends.

Should Hiram Johnson win the nom-
ination at Chicago, the Democrats at
San Francisco, it is said, would select
a standard bearer as much like Wood-
row Wilson as they could find and
make the fight on a strictly league or
no league basis.

Hoover Like Wilson

Over the other hand should Herbert
Hoover find the colors of his party
at his lance at Chicago, the league
of nations would assume far less
importance as a campaign issue, for
the line of demarcation between the
Hoover and the Wilsonian point
of view would be much too faint for
the average man in the street to see
or care about.

Domestic issues would almost surely
take precedence.

For it is now considered a certainty
that the Democrats at San Francisco
themselves will go on record as favor-
ing the treaty "reservations which
do not nullify" just as President Wil-
son has already done. And campaign
audiences both sides agree, could
scarcely be made fighting mad over
the difference between this kind of
reservations and some other kind of
reservations equally subtle.

While the strategy of the Democrats
is to wait for Chicago then to make

what will happen at Chicago? Each
Republican Old Guard candidate has
proved a disappointment in the state
wide primaries, and Major General
Leonard Wood, not an Old Guard man,
will have pretty much the field against

GERMANY STARTING UPWARD CLIMB SAY OFFICIALS IN CHARGE

Paris, May 7.—Germany has reached
and passed her lowest point and has
now begun the upward climb which is
destined to place her once more among
the foremost nations of the earth, ac-
cording to Herr Mayer, German charge
d'affaires in Paris who has just re-
turned from a trip to Berlin.

Herr Mayer returned from Germany
with a decidedly optimistic view of
conditions east of the Rhine.
"Germany has passed her lowest
point and is now coming back," he
said. "Coal production has been re-
sumed on a large scale and has now
reached the point where it was before
the Kapp revolution. Our train ser-
vice has been greatly improved and
there is a marked better spirit among
the workers."

Herr Mayer declared that he in-
formed Premier Millerand that he
would be impossible for Germany to
decide until next year the amount she
is able to pay the allies annually un-
der the treaty.

Parliament has adopted a new tax-
ation program but it is impossible to
estimate the amount of revenue it
will bring in before it is collected at
the end of the financial year.

It is useless, according to Mayer, to
expect that Germany can reach the
point of fullest production until the
allies fix the total amount if her in-
debtedness.

"We are ready to pay all we can
but it is not possible to state the amount," he said.

CHIEF SEAPORT OF SOUTHERN RUSSIA HELD BY UKRAINIANS

London, May 7.—Odessa, the chief
seaport of southern Russia was cap-
tured by Ukrainian troops a week
ago, said a news agency dispatch
from Paris today, quoting Lemberg
advice.

Odessa has been called "the gran-
ary of southeastern Europe," and is
of tremendous importance, not only
to Russia but also to southeastern
Europe. It was through Odessa that
Russia formerly exported her enor-
mous wheat crop. It was the fourth
city in point of population in the Rus-
sian empire. The last census, taken
in 1901, placed its population at ap-
proximately 500,000.

DISBANES AIR FORCES

London, May 7.—Germany has
agreed to destroy all military air
forces and disband her except one air
plane factory and one hangar, accord-
ing to a news agency dispatch from
Berlin today.

BRITISH SHIP TO RESCUE ICE-BOUND RUSSIANS

SPRINGFIELD TO HAVE DAYLIGHT SAVING, IS PLAN

Special Meeting of Com-
mission Called For
Monday.

Springfield, O., May 7.—Clocks
will be advanced one hour May 1st,
unless city commissioners undergo a
change of heart between now and
next Monday night. This action was
the outcome of an informal meet-
ing of the commissioners Thursday
night, when it was decided to pre-
pare emergency legislation to set
the clocks ahead one hour, for pas-
sage at a special meeting Monday.

This change will put Springfield
on the same basis of time as Colum-
bus, Dayton and Cincinnati, but will
make city time one hour faster than
railroad and county time.

Some months ago the plan was
suggested in Springfield because other
towns were still on Central time.

Westcott's Plan
Mayor Westcott brought the sub-
ject to the attention of the com-
mission. He explained he formerly
opposed the change in time, but
that he now favored it since the oth-
er cities have changed.

Commissioner Beupain opposed
the change at first on grounds it
would inconvenience the city's busi-
ness with the county, but voiced no
opposition when it was agreed to pre-
pare legislation to advance the
clocks.

Commissioner Houck did not ex-
press his opinion.

TURK GOVERNMENT BEGINS MOVEMENT TO SUPPRESS PARTY

London, May 7.—The Turkish gov-
ernment is openly avowing its de-
termination to suppress the nation-
alist movement while at the same time
secretly conducting negotiations with
its leaders, according to a Constanti-
nople dispatch to the Express today.

The Express correspondent at Con-
stantinople learns that the great
visier is endeavoring to reach an
agreement with Mustapha Kemal,
leader of the nationalists, so that the
Turks can represent a united nation
at the Paris peace conference.

RAILROADS FILE INCREASE IN RATES

Washington, May 7.—All railroads
west of the Mississippi river today
formally filed with the interstate
commerce commission proposals for
advances in freight rates of 24 per
cent. Their brief declared such an
increase necessary to increase by
\$352,893,000 a year the minimum
necessary to bring their net income
up to 6 per cent on a property in-
vestment of \$8,963,883,000.

Ice Breaker Plowing In Arctic Waters To Lend Assistance

London, May 7.—The British ice
breaker Sviatgor is plowing its way
through the ice of the Arctic
ocean some 1000 miles from the north
pole in a desperate effort to rescue
80 Russians men, women, and children
who for ten weeks have been facing
death by starvation and freezing.

Nothing has been heard from the
party since late in March and it is
feared that when the Sviatgor finally
reaches the scene, it may find only
skeletons as a recompense for the
long, hazardous journey.

The Russians tied from Archangel
just before the Bolsheviks captured
the city. They sailed northward hop-
ing to reach a Siberian village where
they would be safe.

Their scanty supplies soon became
exhausted. The coal ran out and
their food was put on famine ration
basis. They were helpless for help.
Archangel caught their message, re-
layed it to Moscow and Moscow
flushed it to London. Some time
elapsed while the Moscow and Lon-
don authorities discussed which
could reach the scene first.

ICE BOUND
Last reports on the position of the
Solvic placed it frozen fast in the ice
of the Kara sea between Vova Zem-
la land and the Yalmal peninsula.

The ice of the Kara sea begins to
melt this month and then the Solvic
will be left at the mercy of wind and
wave.

The Sviatgor is in charge of Com-
mander Claude L. Bate, the famous
Norwegian explorer. M. Severdrup,
will help direct the rescue work.

First news of the Solvic's plight
reached London on March 31, al-
though she was first caught in the
ice on January 24 and began drifting
southward. On March 23 she was
off Cape Ebtarna, frozen in. That
day saw the last of the fuel, a few
remaining barrels being chipped up
to get fuel enough to provide power
for a wireless message.

The Sviatgor is one of the most
powerful ice breakers in existence.
It operates by climbing over the ice
with its cutaway bow and breaking
the frozen mass by sheer weight.

WILSON WILL KEEP IN CLOSE TOUCH WITH CONVENTION

Washington, May 7.—President
Wilson will keep in close touch with
the Democratic national convention
when it opens on June 28 despite
the fact that it will be held in San
Francisco, almost the farthest pos-
sible point in the United States from
Washington.

The president will be in direct
communication at all times with ad-
ministration leaders at the conven-
tion, not only by direct telegraphic
wires leading into the White House
executive offices but also by a direct
telephone line which will be set in
order that he may converse from his
study.

According to present plans the
president will remain in Washing-
ton until after the San Francisco
convention but should the plans be
changed and the summer white house
be established at some New England
resort direct wires will be estab-
lished to San Francisco.

CHILD IS "HOSTAGE"

Berlin, May 7.—The government
commissioner of Pomerania has re-
ported the six year old daughter of
Major Bischoff, one of the chief fig-
ures in the Von Kapp revolt, who fled
after the collapse of the venture. The
child is being held as a "hostage" for
the father's appearance.

CARRANZA FLEES MEXICO CITY; WILL MAKE LAST STAND IN VERA CRUZ

WILL PASS REBEL TERRITORY UNDER GUARD TO OCEAN

Mexican President May

ican Ship.

MAY RALLY FORCES

Part of Vera Cruz

Forces.

Washington, May 7.—President
Carranza left Mexico City at 1 o'clock
last night for Vera Cruz according
to a message received today by the
agency of the Sonora revolution here.

President Carranza is reported in
the advices received here to have left
Mexico City under escort of troops
in command of General Candido
Aguiar, his son in law.

The message received at the revolu-
tionary came by way of Laredo,
Texas, and was filed at 1 o'clock last
night. It stated "at this hour Presi-
dent Carranza is leaving Mexico
City for Vera Cruz."

A special train was arranged for
the departure of the president, the
message received here stated. The rail-
roads between Mexico City and Vera
Cruz are under control of rebels, but
it is believed that President Carranza
will attempt to run his train
through.

Agents for the revolution here
were of the opinion that rebel lead-
ers would not attempt to stop the
president from proceeding to Vera
Cruz if assured that he was not tak-
ing large sums of money with him.

Vera Cruz is still loyal to Carranza,
it is believed that the president will
endeavor to make a stand at the sea-
port capital. In case he should de-
cide to flee the country entirely, he
could undoubtedly find refuge on
some foreign ship in the harbor. It
was intimated today in official cir-
cles here that he would be received
by any American warship to which
he might apply for asylum, there be-
ing a well established precedent in
the state department to this respect.

Both railway lines leading from
Mexico City to Vera Cruz pass

has formally declared for the rebels
and is now under their control. Rail-
way communication on these lines
has been interrupted several times
during the past two weeks.

naming as his whole desire that he
"be not humiliated." The letter is
reported to state that he seeks no per-
sonal advantages from the revolution,
but is "fighting for the common peo-
ple."

Revolutionary leaders stated today
that if they succeed in overthrowing
the Carranza government, Fernando
Iglesias Calleson probably will be
named provisional president of Mexi-
co, pending the elections, in which
General Obregon is expected to win.
Calderon is an attorney in Mexico
City.

WANT VETERAN TO BE CANDIDATE

Columbus, O., May 7.—Sergeant
Charles B. Orwig, Mansfield, clerk in
the adjutant general's department,
is being urged by enlisted men, mem-
bers of the 37th division, to become
a candidate for the Democratic nomi-
nation for state treasurer.

Orwig is secretary of the 37th di-
vision association. He is a former
newspaperman and lost a leg while
fighting with the 146th Infantry in
the Argonne forest.

REPORTS UNTRUE ALLEGED.

San Antonio, Tex., May 7.—Reports
that Carranza has fled to Vera Cruz
are denied in telegrams received at
Laredo and other border points in
direct communication with Mexico
City, according to a special dispatch
from Laredo, published in the San
Antonio Express today.

Carranza is under constant sur-
veillance of revolution agents and
his escape without detection is im-
possible, the dispatch declares.

PROFITEERING SCORED AS MENACE TO NATION'S FUTURE; COSTS EACH FAMILY IN AMERICA \$240 PER YEAR

Washington, May 7.—Every family
of the United States is paying a profi-
teering tax of \$240 a year as a result
of the excess profits made by the
combined corporations of the country
during the war. W. Jett Lauck, con-
sulting economist and former secre-
tary of the war labor board, declared
today before the federal railroad la-
bor board. Labor as a class, he de-
clared worse off now than during the

war. Instead of labor costs being
the initial influence in forcing increas-
es in the cost of living, he said, wage
increases have lagged behind price
increases.

Capital, on the other hand he said,
"has received a very much larger pro-
portion of the income of the country
and is profiteering on such a scale as
to menace the nation's future."

"Viewed as a pure economic propo-
sition in the light of economic his-
tory, no sane man can fail to realize
that the present situation in the United
States marks the gravest crisis the
nation has encountered since the Ameri-
can Revolution. In 1860 and in the
light of the easily obtained evidence
on unprejudiced citizen can fail to
place the burden of the responsibility
upon the groups of capitalists and
financiers who have acted upon the
sufferings and sacrifices of a nation
at war as the means of aggrandize-
ment such as the world before has
never known."

HARDING'S LEAD OVER GEN. WOOD GIVEN AS 14,692

Official Count Shows Boyd
Beats Daugherty By
959 Votes.

Columbus, O., May 7.—United
States Senator Harding's official
plurality over General Wood at the
Ohio presidential preference primar-
ies is 14,692 and William H. Boyd,
Cleveland, Wood candidate, defeated
H. M. Daugherty, Columbus, by 959
votes for delegate at large to the
Republican national convention, ac-
cording to the complete official re-
turns received by Secretary of State
Smith.

At the primaries, \$7,505 Demo-
cratic votes were cast as against
259,223 Republican votes.

The Republican preferential vote
was: Harding 123,257; Wood 108,
565; Johnson 16,783; Hoover 10,
467; scattering 151.

Republicans voted for delegates
at large as follows: Herriek 131,
190; Willis 121,942; Galvin 118,197;
Boyd 107,449; Daugherty 106,490;
Turner 105,945.

The Democratic preferential vote
stood: Cox 85,338; Bryan 971;
Hoover 282; scattering 369.

The vote received by the unop-
posed Democratic candidates for de-
legates at large was: Harmon 70,
164; Campbell 69,129; Pomerene
55,553; Moore 60,633.

An expense account, filed with
Secretary of State Smith by John
H. Price, Wood's Ohio campaign
manager, shows \$25,060.49 spent in
Ohio. Of this amount \$25,060.50
was received from the Leonard Wood
national committee. The money
was spent for salaries, hotel bills and
traveling expenses. Price stated
that Wood national headquarters
paid board bills and newspaper ad-
vertising bills.

HEAVY LOSSES ARE SUSTAINED BY OIL ISSUES IN MARKET

New York, May 7.—Selling con-
tinued at the opening of the stock
market today resulting in losses of
from fractions to over 6 points in
nearly all the active issues.

Steel common dropped 3-4 to 95
1-4. Baldwin after selling up to
117 dropped to 115 1-2. Crucible fell
6 points to 134; Bethlehem steel B
2 5-8 to 93 1-2. Republic steel
1 3-4 to 95 1-2.

The heaviest losses were sustained
in oil issues, Mexican petroleum
selling up to 181 at the start and then
falling sharply to 176 1-4.

Pan American petroleum dropped
3 1-4 to 47 3-4 and Texas company
1 1-2 to 47 1-2. Royal Dutch rose
1 1-2 at the start to 115 3-4 but
quickly lost this upturn.

Studebaker dropped 1 5-8 to 79
1-4 and Pierce Arrow one point to
58.

Losses of two points were suffered
in American Woolen, Atlantic Gulf
and U. S. Rubber. The railroad
stocks showed fractional losses.

EXAMINATION HELD FOR POLICE POSITION

A civil service examination will be
held Monday morning at which time
applicants for the position of regular
patrolman on the police department
will be received.

When both candidates who passed
the last examination, changed their
minds and refused to take the position,
the vacancy left when Chief Graham
was promoted to succeed James M.
Canaday as chief, was unfilled. Pat-
rolman Ed Wilkins has been filling
the position since that time but he
is not a candidate for the regular po-
sition.

Applicants are requested to be ready
to take the examination Monday.

POLITICS BEGINS ACTIVITIES WITH CONVENTION NEAR

Both Major Parties Whip-
ping Plans Into
Shape.

HITCHCOCK LEADER

Replaces Procter As
Wood Manager Prac-
tically.

New York, May 7.—With the first
of the big political conventions sched-
uled to open in Chicago just one
month from tomorrow, things begin
to whip up politically today around
the various camps in the east.

The outstanding developments
were these:

Democrats—"Teddy"
Edwards of New Jersey, who frank-
ly wants to make the United States
as well as the Atlantic ocean came
out into the open with his political
affairs and announced himself a sure
"enough full fledged candidate at San
Francisco."

A fight in the New York delegation
over the "unit rule" is threatened.
And it will be carried right to the
floor at San Francisco, according to
opponents of Charles Murphy, the
Tammany boss. Friends of William
G. McAdoo are behind the fight.

Republican—Frank Hitchcock, re-
puted to be the most astute political
mentor of either party, assumed
charge of the Wood campaign, dis-
placing for all practical purposes at
least, Col. William C. Procter, the
Cincinnati soap manufacturer, and
chief financial angel of the Wood
drive.

Spectre of 1912
The spectre of another 1912 arising
before the eyes of Republican
leaders as a result of Hiram John-
son's ultimatum that he can't be
compromised with a vice presidenti-
al nomination. It will be either
presidential nomination or nothing
with Johnson.

Herbert Hoover's headquarters an-
nounced that despite California and
despite everything else, he still is a
candidate and will remain so until
after June 12 at Chicago, by
which date it should be all over.

Governor Edwards's campaign head-
quarters is in charge of W. W. Vick,
who was active in the candidacy of
President Wilson in 1912, and who
was later assistant secretary of the
Democratic national committee.

The first communique from the
Edwards camp said that the governor
was making his campaign as a "busi-
ness man" and not as an opponent
of the Volstead act. It was de-
clared to bring his candidacy forward
in compliance with a "widespread de-
mand from all parts of the country."

The placing of Hitchcock in
charge of Wood's fortunes was look-
ed upon in political circles as a mas-
ter move.

Colonel Procter was placated with
the title of "chairman of the national
campaign committee" while Hitch-
cock's designation is that of "inter-
national campaign manager." The result
of the compromise as viewed here is
that Colonel Procter will continue
to provide the sinews of war and
Mr. Hitchcock will supply the dele-
gates at which job he is an acknow-
ledged expert.

HARDING'S ACTION IN POLITICAL SPHERE AWAITED ANXIOUSLY

Columbus, O., May 7.—"If Sen-
ator Harding doesn't file for renomi-
nation reasonably soon, we will take it
mean he doesn't intend to do so and
we'll start to petition Colonel William
Cooper Procter, of Cincinnati, to run
for United States senator from Ohio."

This is the statement made here by
John H. Price, Ohio manager of Maj.
General Leonard Wood's campaign for
the Republican presidential nomi-
nation.

"On the other hand," Price con-
tinue, "if Harding does file, we'll con-
sider it a withdrawal from the pre-
sidential race and we'll go after it.
Harding delegates elected last week.
"I think we could induce some of
them to support Wood on the first bal-
lot and most of them on the second
ballot. Some of them were elected
districts that voted overwhelmingly
for Wood on the preferential ballot.
But, if Colonel Procter won't be
candidate this year, he certainly, we
be two years from now when Sen-
ator Pomerene's term expires."

That Wood will be nominated
either the first, second or third bal-
lot at the Chicago convention was
claimed made by Price.

William E. Halley, at Harding's
state headquarters, didn't believe
Harding delegates would interpret
ing for renomination for the United
States senate as withdrawal from
race for president.

LUENDORFF RETURNS

London, May 7.—General Ludendorff
has returned to his residence in
Berlin after a mysterious
weeks' absence. His whereabouts
have been unknown in Berlin and
is popularly supposed that he
has been in hiding for fear of investiga-
tion in connection with the Von Kapp
episode.

WANT FEDERAL AID

Chicago, May 7.—An appeal to the
federal government to aid in stamp-
ing out the menace of anthrax and to
take measures to prevent the spread
of the deadly disease to other cities
will be made today by the city authori-
ties. The disease has claimed five
victims here.

PROPOSES WAY TO HELP WORLD IN POPULATION

Paris, May 6.—The startling proposal that an international marriage pool may be formed to provide for the repopulating of Europe and the salvation of the white races of the earth was made by Professor Paul Carnot, famous member of the faculty of medicine of the university of Paris.

Europe he declared, has a surplus of millions of women for whom there never will be husbands unless some arrangement can be made to have them marry outside their own countries. The whole future of the white race, he asserted, is bound up in the problem.

"The last census figures," said Dr. Carnot, "showed a great surplus of males over females in the United States. We have millions of surplus women. Then why not a Franco-American bureau to facilitate marriage of American men with the girls of France, where the war left such a shortage of men? Why not a Franco-Argentine bureau. A Franco-Australian bureau, in short, why not a great international bureau where each country may make known its human needs and provide facilities for courtship and eventual marriage?"

"We, on the allied side, pooled our supplies of munitions to win the war. We pooled our shipping, we pooled our finances and finally we pooled our men. Is there then, any reason why the white races of the world should not pool their greatest of all productive resources, so that civilization itself may not perish?"

"Supreme councils and ambassadors, councils and prime ministers and foreign ministers are sitting up nights discussing territorial boundaries and the rates of exchange, but they are actually doing nothing to solve the greatest social problem

that has confronted the world since Christ was born—the question of what to do with the millions of marriageable women who are destined to repair the war's human wastage, but who find no husbands awaiting them.

"I call it a social problem, but the whole future of Europe and the whole future of the white race is bound up in it to such an extent that territorial and financial questions are infinitesimally small.

"In the far east, in China and Japan, hordes of yellow people are constantly multiplying until we hear talk of a 'yellow peril' that will inundate white civilization.

"In the United States and other civilized countries that suffered little loss of man power in the war the birth rate is falling off and apparently nothing is being done about it.

Europe, staggering to her feet from the wounds of war, confronts a problem of repopulation with an excess of between 15,000,000 and 20,000,000 women over men.

"I have suggested the recruiting of a volunteer army of maternity, an organization of women who would agree to rear babies to repopulate devastated Europe, to help France back to her feet. I have even urged that governments recognize the rights of a woman to maternity outside matrimony and for these suggestions I have been attacked and called a 'free lover.' I am not. I am merely cognizant of the great problem confronting the white races of the world.

"When I made these suggestions I had not hope that they would be adopted. The world is not far enough advanced yet for that. But I see no reason why there should not be organized at once an international marriage bureau whereby a country, like the United States, with a large surplus of would be husbands, cannot carry on satisfactory negotiations with another country like France with a surplus of would be brides."

NERVES STEADY AS 8 DAY CLOCK SAYS ATHENS LADY

Never knew what a full night's rest was, rolling and tossing from one side of the bed to the other.

Now she sleeps sound and awakes feeling refreshed, since taking Dreco.

"I used to dread going to bed because it meant fitful sleep, bad dreams and rising next morning more tired than the night before," said Mrs. Stella Guess, of 6 Brown Ave., Athens, O.

"My stomach gave me much distress from nausea and by filling up with gas after meals. I was constipated daily; had no appetite, and had aching pains in my back right over my kidneys. Dizzy spells often attacked me; I had a bitter taste in my mouth and my tongue was coated most all the time.

"Dreco has proven to be a wonderful remedy for such troubles as I had, for I'm feeling better than in many a day. I strongly recommend Dreco as a tonic for women."

Dreco is made from the juices of twelve different herbs, roots, barks and leaves, which act directly on the stomach, liver, kidneys, bladder and the blood, and tends to relieve constipation, headaches, rheumatism, catarrh, biliousness, dizzy spells, heart fluttering, gas on the stomach and other troubles.

ALLEGES FRAUD IN SUIT GIVEN TO JURY FRIDAY

Charges that he was defrauded of \$1083 through false representations on the part of the defendants, were made by Edward G. Fowler of Yellow Springs at the trial of his suit against Edith and Charles L. Monnett, before Judge Kyle and a jury in common pleas court.

Orpha B. Hyde and John W. Davis, who were named as co-defendants by Fowler in his suit which was brought a year ago, were dismissed as defendants by Judge Kyle Thursday on the grounds that the evidence given by Fowler failed to disclose that they had been party to the alleged conspiracy.

Fowler, who was 65 years of age at the time the suit was brought, alleged that the defendant, Mrs. Monnett had represented to him that she was an unmarried woman, and offered to give him the management of 167 acres of land near Yellow Springs. He declared that on her representation he went to her home where for the first time he met the other defendants. He alleged that he was under the influence of the defendants to such an extent that he at various times, turned over to them sums aggregating the amount for which he is suing.

The case was given to the jury at noon Friday. Fowler is represented by Attorney Frank Dean and H. D. Smith and J. K. Williamson are counsel for the defendants.

DISTRICT D. A. R. HAS NEW OFFICERS AFTER MEETING THURSDAY

Suffered For Eight Months Then Trutona Gave Her Real Health Again.

Delaware, O., May 6th, 1920—Mrs. Mary Kaley, wife of a local employe of the Hocking Valley R. R. Company, who lives at 112 East Central street, is now advising others to give Trutona, the perfect tonic, after gaining remarkable relief from her troubles through it's use herself. She is both grateful and enthusiastic in describing her relief in the following interesting statement:

"About eight months ago I began having trouble with my liver and kidneys, but I didn't pay much attention to it until about three months ago, when I realized that something had to be done. My appetite had become poor and what little I did eat didn't taste right. I was also bothered a great deal with headaches and dizziness at times. I was so nervous I couldn't sleep at night, and when I'd get up of mornings I'd feel as though I hadn't had any rest at all.

"It has taken just one bottle of Trutona to create this decided improvement in my condition. I don't suffer from headaches as I formerly did, and that dizzy feeling has also been relieved. The pains in my right side and back too, have been relieved by Trutona, and my nerves have been steadied so that I can sleep much better now. There is only one trouble about my appetite nowadays, and that is getting enough to eat. Trutona has certainly done for me just what was recommended for it, and I know it is the medicine for ailments such as mine. My advice to others who are troubled as I was, is to try Trutona as I have done."

WHICH WORDS DO WE USE MOST?

"If words should ever become as scarce as sugar, and we should be placed on word rations, how many would we require for ordinary every day use? Which of these would we need most? What ten words would be indispensable?" This is the way our own Xenia born and bred Fred C. Kelly starts a very interesting article in the May issue of the American Magazine. Having never taken a thought on the subject, it may seem to you of little interest, and yet the reading of the article proves it to be quite attractive.

Mr. Kelly continues: "We have now come by easy stages to a consideration of the work of Col. Leonard P. Ayres, who once made a far-reaching investigation into the whole question of words. Ayres is director of the Division of the Russell Sage Foundation."

It occurred to Ayres that an ideal way to teach spelling to children would be to find out which words they would have to spell most frequently, and drill them on those with especial care. To do this Mr. Ayres obtained the use of hundreds of letters of all sorts, containing over 100,000 words, and put tabulators to work counting, analyzing and tabulating them.

When the work was completed, the biggest surprise was not how many different words we use, but how few. Out of a total of nearly 24,000 words, for instance, there were so many repetitions that the number of different words was only about 2,000.

Ayres had intended to classify all the 2,000 words that seem to comprise an average person's entire writing vocabulary. But it was found that any word beyond the first 1,000 was used very infrequently. Most of the words in the list of 1,000 we would use, no matter what the subject under consideration.

In the accompanying list as published the 1,000 commonest words are arranged in the order of the frequency of their use. The figures opposite each word indicate the number of times it appears in 100,000 words written by an average person in letters, for example.

The following are the first ten words in the list: The 6,393, and 3,438; of 3,422; to 3,217; I 2,387; a 1,911; in 1,904; that 1,422; you 1,306; for 1,241; it 1,197.

The following are samples, running clear through the list: Old 118, every 117, says 60, car 59, cost 37, February 37, sold 27, told 27, ticket 21, usual 21, raise 17, really 17, consider 13, contract 13.

The list of 1,000 most used words in 100,000, occupies a whole page in the magazine. And most remarkable, scarce a single word of the thousand but one which any ten year old child can spell.

Most city schools have devoted something like six or seven per cent of the time of the elementary grades to the formal study of spelling—which means that of the eight years devoted to elementary schooling, half a year is consumed by spelling. Some school systems endeavor to teach the spelling of three thousand words in the first three grades. Many spelling books used in the intermediate and upper grades contain as many as 15,000 words.

In order to ascertain the relative spelling difficulty of the 1,000 commonest words, Ayres arranged with superintendents of schools in various cities throughout the United States, to have the words spelled in the elementary grades.

By this plan, it was learned not only which words of those in general use are the easiest and most difficult to spell, but just how difficult the different words are for pupils of any particular grade in our schools.

For example, the easiest word to spell—of all those in common daily use is me. And the most difficult is judgment, with recommend and allege close to it.

THE RULES OF THE GAME ADMIT OF NO EXCEPTIONS.

You might think from the way some people talk that Nature and Fate spend their time making the rough places smooth for particular favorites, while the rest go to perdition with the malevolent connivance of blind forces.

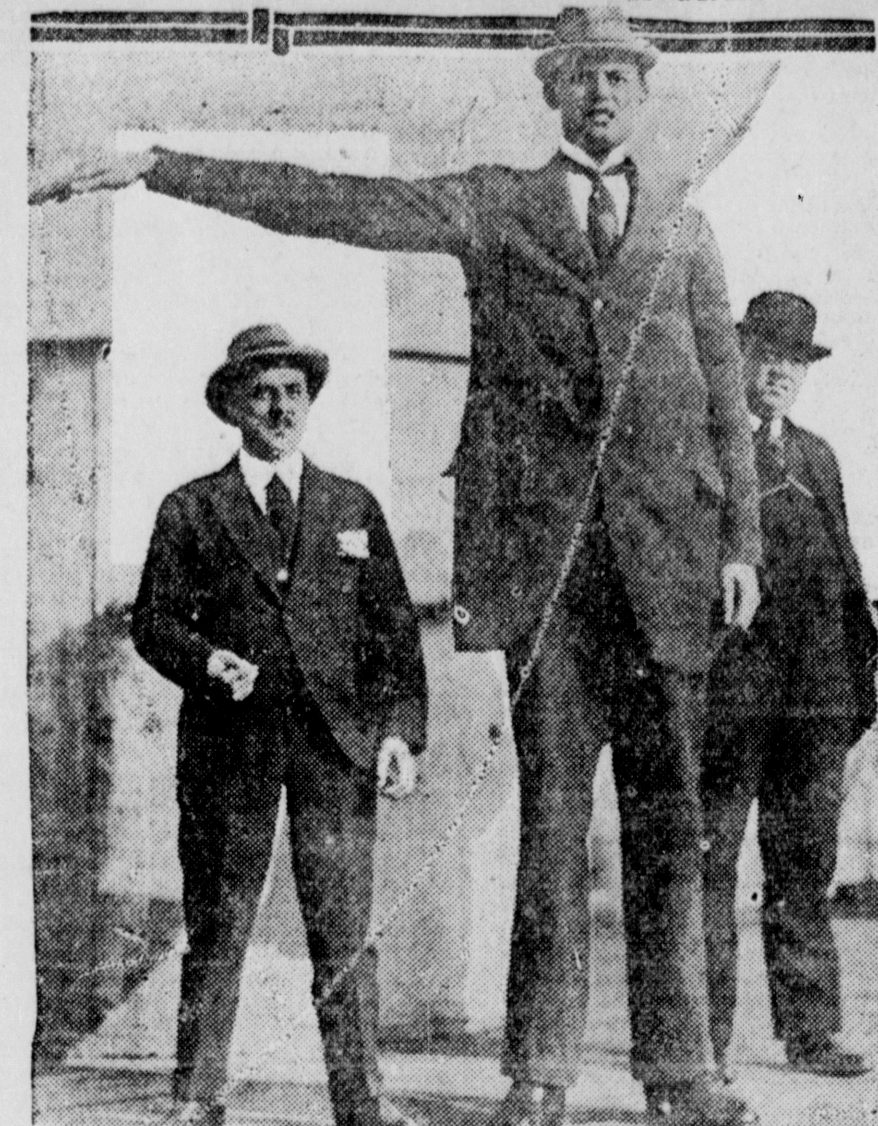

But nobody for any price can purchase an exemption. We all live under the operative hand of inviolable natural laws. The rules of the game admit of no exceptions. The immunities we think we see are phantoms and not facts. The world and the welkin are as good to you and me as they are to anybody.

You carry some trouble, and you imagine none ever transported a burden so complex and so woeful. It is a form of misery so mean and so peculiar that it seems to have been invented especially for your torment. "The heart knoweth its own bitterness."

But how foolish it is to imagine that any of us has a patent, a copyright, a monopoly in problems grievous and fearful! This man who smiles and is calm may be confronting large questions that concern the ongoing of a great industry, the management of a whole city, the welfare of the millions inhabiting a nation. Everybody who has an opinion to offer is talking at once and saying how much better he could do if the matter were left to him. But the leader, shouldering the responsibility, stands in his place, holds his ground and when the time comes moves on.

No fight is finer than the courageous, persistent battle against circumstances. It is a battle good for the soul, and a man was forever meant to be the victor. He is never alone as long as he struggles and will not give in. Carlyle tells us of the mighty host of all past time, who rise up and surround us with their voices of encouragement and exhortation if we are worthy, they went the same way that we are walking now—a while ago. They knew every black shade of bitterness in our abysmal desperation. We brought to the earth no news of human life; those who were here before us had to lift and carry the load that is now upon our shoulders. If they could do their duty, we can do ours.

PROHIBITION BIG ISSUE DURING PRESIDENTIAL CAMPAIGN DECLARES DARLINGTON TO W. C. T. U. MEETING

"Prohibition will be a big issue in the presidential campaign. There is no use saying that the prohibition question is not in politics, for it is there, and it is there to stay. One thing is certain however, the Republican party will have a platform that is bone dry, and will stand for principles that will enforce the prohibition laws now in effect."

This was a declaration of Captain Charles L. Darlington, who addressed members of the Greene County Women's Christian Temperance Union at the institute which was held Thursday at Trinity church.

The speaker called attention to the fact that in the Literary Digest poll, Governor Edwards and Governor Cox, both of which, he said, avowed wet principles, polled the largest number of votes of any Democratic candidates for the presidential nomination. He declared that it was certain that the Democratic platform to be adopted at the national convention would be "mild wet," than the "bone dry" Republican platform. While Bryan might be able to cause the defeat of the wet candidates for the nomination, in the opinion of the speaker, he would not be able to hold his party down to anything "drier," than a declaration in favor of possibly light wines and beer.

Captain Darlington declared that the question that would cause the greatest divergence between the two great parties this fall, would be that of the League of Nations. He declared in favor of the League reservations to the League covenant, and urged the women to get behind this amendment if they have the ballot next fall.

Discussing Article 10, Captain Darlington called attention to its provisions making it necessary for any power in the League to lend its assistance to any other nation, upon a favorable vote being taken by the powers in the covenant. He also declared that it was a menace to the Monroe doctrine, and spoke of the fact that England has six votes in the League, to one vote of the United States.

Touching upon the high cost of living, Captain Darlington said that in his opinion neither party would offer any substantial solution to that problem.

Attorney M. J. Hartley, who followed Captain Darlington, presenting the Democratic side of national issues, declared that despite Captain Darlington's assertion, he did not believe there would be a dry platform adopted by either of the great parties this summer.

He called attention to the unfavorable vote on the prohibition amendment in Ohio last fall, and pointed out that a political party, in adopting principles, is influenced by conditions and what it is believed the majority of the people want irrespective of by the personal feelings of any leaders of the party.

He did not enter into a discussion of the League of Nations, but urged the women not to be guided by an "superficial criticism" of what he termed a "splendid covenant" and to investigate and study it themselves. Speaking of England's six votes, he called attention to the fact that a vote on any subject must be unanimous, therefore rendering Great Britain's six votes of no more power than the one of the United States.

Improving the moral standard of the home, and providing financial assistance to mothers so that children may be kept in the home, were two things suggested as a means of decreasing juvenile crime and delinquency, by Judge J. C. Marshall, who addressed the institute in the afternoon.

Judge Marshall said that statistics show that 78 per cent of all crime is committed by children between the ages of 12 and 18 years, and that only ten per cent of these juvenile criminals are regular attendants at Sunday school.

Children should be kept from dependency and neglect by being given the proper home training and care, he declared, and it is the duty of every citizen to see, not only that his own child has that advantage, but that it is received by the child of the parent who is not financially able to give it to him. Mothers' pensions he said, were a step toward securing this end, and he expressed hope that the present law in Ohio would be amended so as to make finances available for the purpose.

At the Thursday night session of the institute, Mrs. Viola D. Romans of Columbus, state vice president of the W. C. T. U., spoke on "The Crisis in Our Temperance Movement." She spoke of the prohibition movement as it affects England, China, Japan and other countries, and the duties of the United States toward these lands.

Mrs. Jennings of Marion, a state house to house worker for the W. C. T. U. who is now in Xenia, and will spend several weeks here and in the county was presented to the gathering and talked briefly about her work.

Mrs. Carrie L. Flatter, county president, presided at the institute, and in the evening gave a short talk explaining the present cigarette laws.

RECIPES FOR A DAY

Old Fashioned Potato Stew—Cut salt pork in thin slices and cover the bottom of the kettle. Add a little red pepper and one onion (if liked) sliced thin. Let stand where it will simmer a little for about ten minutes. Then add the potatoes cut in pieces less than the size of an egg. Pour over sufficient water to cook the potatoes and boil briskly till done; then remove to the serving dish, placing the meat on top. Pour into the liquid in the kettle one cup milk; thicken this gravy and pour over the stew, adding a little butter substitute.

Mock Apple Pie—Slice pie pumpkin a little thinner than apples to fill in quite full. Pour on boiling water and stand back of stove while crust is being prepared. Sprinkle crust with a spoonful of flour, sugar to taste, a quarter teaspoon of salt. Then pour in the drained pumpkin slices, two tablespoons of vinegar and the juice of a lemon. Cover with an upper crust and bake rather slowly.

Cabbage Salad—Shave cabbage fine, soak in salt water one hour. Wring dry in a towel. Pour over well seasoned, whipped, sour cream. Serve cold.

Rice and Peanut Butter—Boil

one-half cup of rice until tender, in boiling, salted water. Pour over it one pint of thin white sauce, to which one-half cup of peanut butter has been added. You will find this a tasty combination.

Swedish Nut Rolls—One cup scalded milk, two tablespoons butter, one tablespoon salt, one yeast cake, two tablespoons lukewarm water, two cups of flour, one-half cup wal-nut meats, three tablespoons maple or brown sugar.

Add butter, sugar and salt to milk; when lukewarm add dissolved yeast cake and flour. Beat thoroughly, cover and let rise until light; cut down and add flour enough to knead. Let rise again, roll out one-fourth inch thick, spread with butter, sprinkle with maple sugar and half the nut meats. Roll up a like a jelly roll and cut in three-fourths-inch pieces. Place pieces in buttered pan, close together, flat side down. Again let rise and bake in a hot oven.

When rolls are taken from oven brush over with white of egg slightly beaten and dilute with one-half table-spoon water. Sprinkle with remaining walnut meats and return to oven to glaze.

ESCALLOPED DISHES

Escalloped Tuna Fish—Butter baking dish, put in layer of crackers and so on with crackers on top. Melt one tablespoon fat in skillet, add one large diced onion; pour over dish, add one pint hot milk and bake. Macaroni or rice may be added and no potatoes served with meal.

Escalloped Corn Beef—Two cups cooked corn beef, cubed. One cup medium white sauce. One stalk celery, chopped fine. Two slices onion, chopped.

Cook celery and onion in sauce. Put the corned beef in a shallow baking dish. Remove celery and onion from sauce. Add sauce to meat. Sprinkle with bread crumbs moistened with melted butter or butter substitute. Brown in hot oven.

RECIPES FOR A DAY

Old Fashioned Potato Stew—Cut salt pork in thin slices and cover the bottom of the kettle. Add a little red pepper and one onion (if liked) sliced thin. Let stand where it will simmer a little for about ten minutes. Then add the potatoes cut in pieces less than the size of an egg. Pour over sufficient water to cook the potatoes and boil briskly till done; then remove to the serving dish, placing the meat on top. Pour into the liquid in the kettle one cup milk; thicken this gravy and pour over the stew, adding a little butter substitute.

Mock Apple Pie—Slice pie pumpkin a little thinner than apples to fill a tin quite full. Pour on boiling water and stand back of stove while crust is being prepared. Sprinkle crust with a spoonful of flour, sugar to taste, a quarter teaspoon of salt. Then pour in the drained pumpkin slices, two tablespoons of vinegar and the juice of a lemon. Cover with an upper crust and bake rather slowly.

Cabbage Salad—Shave cabbage fine, soak in salt water one hour. Wring dry in a towel. Pour over well seasoned, whipped, sour cream. Serve cold.

Rice and Peanut Butter—Boil

one-half cup of rice until tender, in boiling, salted water. Pour over it one pint of thin white sauce, to which one-half cup of peanut butter has been added. You will find this a tasty combination.

Swedish Nut Rolls—One cup scalded milk, two tablespoons butter, one tablespoon salt, one yeast cake, two cups of flour, one-half cup walnut meats, three tablespoons maple or brown sugar.

Add butter, sugar and salt to milk; when lukewarm add dissolved yeast cake and flour. Beat thoroughly, cover and let rise until light; cut down and add flour enough to knead. Let rise again, roll out one-fourth inch thick, spread with butter, sprinkle with maple sugar and half the nut meats. Roll up a like a jelly roll and cut in three-fourths-inch pieces. Place pieces in buttered pan, close together, flat side down. Again let rise and bake in a hot oven.

When rolls are taken from oven brush over with white of egg slightly beaten and dilute with one-half tablespoon water. Sprinkle with remaining walnut meats and return to oven to glaze.

ESCALLOPED DISHES

Escalloped Tuna Fish—Butter baking dish, put in layer of crackers and so on with crackers on top. Melt one tablespoon fat in skillet, add one large diced onion; pour over dish, add one pint hot milk and bake. Macaroni or rice may be added and no potatoes served with meal.

Escalloped Corn Beef—Two cups cooked corn beef, cubed. One cup medium white sauce. One stalk celery, chopped fine. Two slices onion, chopped.

Cook celery and onion in sauce. Put the corned beef in a shallow baking dish. Remove celery and onion from sauce. Add sauce to meat. Sprinkle with bread crumbs moistened with melted butter or butter substitute. Brown in hot oven.

"REAL" FRENCH MAIDS.

It will not be long before milady can call up the Chicago Collegiate Bureau of Occupations, ask for a real French governess and be assured the first steamer from Bordeaux or Brest will carry ma'm'selle. Miss Helen Bennett of the bureau received a letter from a federation of thirty-nine French employment agencies offering to co-operate on a plan by which young professional women of France may be placed in

American positions and Uncle Sam's credits be sent to France to obtain jobs.

Whether the plan is adopted depends on action by the directors of the Chicago bureau.

Miss Bennett said more American young women are seeking positions in Europe and South America than ever before.

Heart and Home Problems

BY MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I have been married four years. Mother would not give her consent to the marriage and so we promised if she would give us her blessing, we might live with us.

We started out together, but from the first day mother bossed so that after six months I was sick in bed with a nervous breakdown. The doctor said mother would have to leave the home and my husband insisted that she go.

A year after I was married our first child was born and mother came back to help care for her. She seemed to have learned her lesson and was much more reasonable for a while.

Now my second baby is born and mother is so unreasonable that she will not let me but and or me have one word to say about what is to be done with our children. Mother is so hateful to my husband that he says either he or mother will have to leave the home. He has given me one month in which to make my choice.

I love my husband and cannot bear the thought of losing him. If I had not been married to keep mother, I would say that she must go. I have always believed, however, that we are punished for the promises we make.

What can I do? JOSEPHINE

Th. promises you made are not all on the side of your mother. To let your husband go would be breaking your marriage vows.

It is very clear that your mother should go and her happiness be sacrificed rather than the happiness of you, your husband and the two children.

Dear Mrs. Thompson: I have been going with a boy for a long time and he has always shown me a pleasant time, but lately he has become rather wild and so I cut him. Did I do right or otherwise? Would it be wrong to have dates with a fellow who has not a very desirable reputation? All respect me. SNEEL

One does not appreciate a good reputation until it is sacrificed. I think you were wise in giving up a friendship which ceased to be desirable. If you yourself want to be respected, see that your friends are respectable.

Dear Mrs. Thompson: I went with a boy a full year and he seemed to care a lot for me. We were very true to each other, but finally he drifted apart and he started going with other girls and I started going with other boys. He has shown signs of wanting to come back and we are always smiling or happy when we see each other. I am going with a boy now, but I don't care so much for him as I did the first one. I tried to put him out of my mind entirely. I thought I had, but now I am interested in him again. Should I let him come back? BETTY O.

Let the young man come back if he asks to, but wait until he asks. You may be misinterpreting his friendliness and placing more importance upon it than he means.

Dear Mrs. Thompson: Is purple good on any one? I am thirty. Am I too young to wear it. N. W. C.

Purple is worn by both young and old. If the shade is becoming to you, you are not too young to wear it.

Dear Mrs. Thompson: Is it proper for a young man to get into an automobile first or should he help the girl to get in? ROSE

It is more convenient for the man to get in first. Then it is not necessary for him to climb over the girl and step on her feet.

Dear Mrs. Thompson: Is it necessary to open a box of candy which a young man brings while he is calling? QUESTIONING.

Yes, the candy should be opened while the young man is calling.

ATTEND CONFERENCE OF SECRETARIES OF RED CROSS SERVICE

Mrs. Lulu C. Quisenberry, Red Cross home service secretary in Greene County, and D. Austim M. Patterson, attended the first state conference of Red Cross Home service secretaries which was held at the Hotel Desher in Columbus, Thursday. Representatives of 198 chapters were in attendance at the meeting.

Thursday morning the secretaries held a talk on vocational training in which Mrs. L. L. Herbst, district vocational worker at Cincinnati, a discussion of the risk insurance, led by A. R. McThurthy, state officer of the bureau, and an address on soldiers' disabilities by Royal Clyde Agne, rural community organizer of Clark County, and Captain J. L. Bachus representing the war department, talked at a noon luncheon at the Desher.

MICHAEL DOWNES DIES EARLY ON FRIDAY

Michael Downes, a resident of Xenia for more than half a century died at his home 317 East Third street, at 5:15 Friday morning, following a long illness.

Mr. Downes was born in Ireland 72 years ago. He came to the United States when a youth, and 50 years ago last October was united in marriage in Xenia to Miss Brigid Gillespie, who survives him. He also leaves the following children: David of Everett, Wash.; George of Dayton; Mrs. John Alexander, of Yellow Springs; Mrs. W. F. Casey, John and Harry of Xenia. Mrs. James Phillips of Yellow Springs is a sister of the decedent. Mr. Downes was a member of St. Brigid's church. Funeral services will be held at the church Monday morning.

OLD BOOK COLLECTOR DIES.

Philadelphia, May 6.—William Supple Lloyd, widely known textile manufacturer and collector of rare books, died today. He was 60 years old. Mr. Lloyd had what is considered to be the first collection of Defoe's "Robinson Crusoe" in existence.

Try Taking Pepto-Mangan

It Isn't Sleep You Need, But a
Good Tonic—More Red
Blood

Everyone gets run down occasionally. Sometimes it's weeks before you get your energy, enthusiasm and happiness back again.

Any doctor will tell you to be careful in a time like this. Your body has little power of resistance, and the danger of catching some serious disease is great. Temporarily, your blood has too few "fighting" corpuscles.

It's the work of these same red corpuscles to keep you free from fatigue. Being constantly tired out—depressed in body and mind—is almost a sure sign that your blood needs help for a time.

Gude's Pepto-Mangan is a standard remedy in cases of anemia (or bloodlessness). It supplies the iron and other properties your blood needs to catch up with its task of keeping you fresh and alert in every fibre.

Pepto-Mangan has the hearty endorsement of physicians, is an agreeable tonic to take, and may be had at any drug store in either liquid or tablet form. Both have same medicinal value.

Be sure to ask for Gude's. There is only one genuine Pepto-Mangan, and the name "Gude's" should be on the package.—Advertisement.

FLOUR HITS HIGH RECORD

Minneapolis, May 7.—Flour made a new high record here with an advance of 50 cents a barrel. An advance yesterday in wheat, with a demand in good steady demand, is the reason ascribed for the increase.

Man Loses Hope

"For ten years I suffered severely from stomach trouble. The doctors said I had cancer of the stomach and nothing would do but an operation. I took my last round of Mayr's Wonderful Remedy 2½ years ago. Since then I sleep well, eat what I want and feel fine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

AUSTIN PATTERSON ELECTED CHAIRMAN OF CO. RED CROSS

Dr. Austin Patterson has been elected chairman of the executive committee of the Greene County chapter of the Red Cross, to fill the unexpired term of Dr. R. B. McClellan who recently resigned on account of lack of time for the work.

At the same time Mrs. L. R. Robertson has been elected vice chairman of the same committee. Mrs. Robertson has been strongly urged to continue the work but for family reasons has not yet decided whether she will resume it at the end of her leave or not. Mrs. Robertson has been working in conjunction with the Social Service League which pays the incidental expenses, and that organization is also anxious for Mrs. Robertson to return.

A conference of all the chapter and branch officials of the Red Cross in the county is being planned for some date in this month, at which time some most interesting reports of what the Red Cross is doing locally will be given.

TELEPHONE RATES BOOSTED BY NEW BURLINGTON CO.

The New Burlington Mutual Telephone Company, which operates in the southern part of this county, has filed notice on a rate increase with the state utilities commission, the increase to become effective July 1. Residence service party lines will be raised from \$1 to \$1.50; business service on party lines from \$1 to \$1.50, and business service on private lines, in New Burlington only, will be raised from \$1 to \$1.50.

WOMAN IS EDITOR AND PUBLISHER.

Mrs. W. L. Morrison, of Maupin, Ore., is both editor and publisher of The Maupin Times. She is a slight little woman, but might give lessons to strong men in energy and enterprise. For five years she has been doing both reporting and the mechanical work on Maupin's weekly newspaper. She has also printed the letterheads, statements and other stationery of the residents of the vicinity.

A FEELING OF SECURITY

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy.

The same standard of purity strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs.

It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything.

It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to try his great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Gazette or Republican.

Yes, I'd pick this paint for your house!

Indeed, I would! If you come to me and say, "What paint is the best for my house?" you'll get just one answer, "Du Pont Paints!"

Reason is simply that I know that Du Pont Paints are the best of the 400 makes of paint that are sold in this country. I have sold a lot of them here to people who were painting everything from entire houses to Kiddie Kars, and they carry the name of a great industrial concern that has always been associated with the biggest and best enterprises in the country, a concern that couldn't afford to have its name on any but a superior product.

When I sell paints to you, I have to be sure that you, my customer, are going to get the best there is. I want your trade next year, too. And I'll tell you frankly there isn't any better paint than Du Pont. I have a FULL line here.

Save the surface and you save all.

AUSTIN PATTERSON ELECTED CHAIRMAN OF CO. RED CROSS

Dr. Austin Patterson has been elected chairman of the executive committee of the Greene County chapter of the Red Cross, to fill the unexpired term of Dr. R. B. McClellan who recently resigned on account of lack of time for the work.

At the same time Mrs. L. R. Robertson granted a three months' leave of absence without pay, in lieu of the resignation which she offered. Mrs. Robertson has been strongly urged to continue the work but for family reasons has not yet decided whether she will resume it at the end of her leave or not. Mrs. Robertson has been working in conjunction with the Social Service League which pays the incidental expenses, and that organization is also anxious for Mrs. Robertson to return.

A conference of all the chapter and branch officials of the Red Cross in this county is being planned for some date in this month, at which time some most interesting reports of what the Red Cross is doing locally will be given.

TELEPHONE RATES BOOSTED BY NEW BURLINGTON CO.

The New Burlington Mutual Telephone Company, which operates in the southern part of this county, has filed notice on a rate increase with the state utilities commission, the increase to become effective July 1. Residence service party lines will be raised from \$1 to \$1.50; business service on party lines from \$1 to \$1.50, and business service on private lines, in New Burlington only, will be raised from \$1 to \$1.50.

WOMAN IS EDITOR AND PUBLISHER.

Mrs. W. L. Morrison, of Maupin, Ore., is both editor and publisher of The Maupin Times. She is a slight little woman, but might give lessons to strong men in energy and enterprise. For five years she has been doing both reporting and the mechanical work on Maupin's weekly newspaper. She has also printed the letterheads, statements and other stationery of the residents of the vicinity.

Smith, made public yesterday.

CHRISTIAN GIVING ADVISED
New York, May 7.—"Celebrate Mothers' Day next Sunday by Christian giving instead of by wearing flowers to church," is the burden of an appeal issued by a committee of women including Mrs. John D. Rockefeller, Jr., Mrs. James C. Colgate and Mrs. James Madison Pratt, active leaders in the Interchurch World Movement. Mrs. Rockefeller made an initial gift of \$5,000.

Yes, I'd pick this paint
for your house!

Indeed, I would! If you come to me and say, "What paint is the best for my house?" you'll get just one answer, "Du Pont Paints!"

Reason is simply that I know that Du Pont Paints are the best of the 400 makes of paint that are sold in this country. I have sold a lot of them here to people who were painting everything from entire houses to Kiddie Kars, and they carry the name of a great industrial concern that has always been associated with the biggest and best enterprises in the country, a concern that couldn't afford to have its name on any but a superior product.

When I sell paints to you, I have to be sure that you, my customer, are going to get the best there is. I want your trade next year, too. And I'll tell you frankly there isn't any better paint than Du Pont. I have a FULL line here.

Save the surface and
you save all.

MOTORAIDS

Tubes must be placed evenly inside a casing and all creases must be eradicated at all costs. A carelessly fitted tube will be subjected to abnormal tension in several places. After partially inflating the tube, and before finally fitting it, it should be carefully placed inside the casing without twisting. Care should be taken when mounting that the tube is not pinched between the edges of the beads and the rim.

Remember that tubes will last much longer if they are properly fitted, and at the same time the motorist will be saved a great deal of trouble. Most good tubes are easy to fit properly for the reason that they are formed on a circular mandrel to the exact shape of the inside of the casing. They are not simply a straight piece of tubing forced into circular form and cemented.

Good tubes, being shaped to fit the casing, are not easily pinched when being mounted, as they are longer on the outside circumference than inside next the rim. For the reason they do not form into folds when being mounted.

"JUST A GIRL"

BY JANE PHELPS

THE PAIN OF PRIDE

Chapter 5

I never had enjoyed a walk as I did that one. It was 4 o'clock when I reached home, and Mother was beginning to worry.

"Where in the world have you been? I wanted you to go to the dressmaker's with me this afternoon but I couldn't wait for you."

"I went to the store to buy some gloves, ran into Mr. Lawrence—Claudia's cousin, you know—and he asked me to take a walk with him."

"Where did you go?"

"Oh, just up the Avenue, then up through the park and back. I got tired and we sat down to rest."

"You mean that you sat on a park bench just like any common girl who knew no better, or who had no other place to entertain her young man? I am surprised at you, Zena! Never do such a thing again."

I made no answer, but I thought, "I surely never shall unless my feet stop hurting," and slipped up to my room to take off my pumps and bathe my aching feet. To my horror they were all blistered! Claudia had arranged for dancing after dinner. How could I dance with blistered feet?

I spent half an hour fussing over them, but I had to wear an old pair of slippers because they were so painful. I put on nice ones until Mother had looked me over, then quickly changed before I went down

to the car. Claudia let Kenneth take Edith Wren in to dinner. I thought it horrid of her. But she and Edith were thick as thieves, and perhaps she wanted Edith for a cousin. Jack Pryor took me in, and I thought that never had he been so uninteresting, so inane. When he found fault because I didn't pay attention to him instead of looking around at the others, I just told him so, too.

"Perhaps if you were more interesting I might pay attention," I said snappily.

"What in the world has gotten into you, Zena? You used to be awfully chummy with me until lately. Have I done anything to annoy you?"

"No, Jack. I guess I'm cross tonight. I might have said I had two reasons—one that Claudia had paired Kenneth with Edith, the other that my feet were burning like fire, even though my slippers were old."

"Please don't be any crosser than you can help; it makes a fellow feel uncomfortable."

I apologized as nicely as I could. Mother would be furious with me if I quarreled with Jack.

"You'll give me the first dance?" he asked when we rose from the table.

"If I am able to dance—yes, I hurt my foot," I hurried on, "and am afraid I won't be able to dance at all."

"I'll sit it out with you then." I tried to dance with him when the music started, but after two or three turns I had to sit down. Jack talked very nicely to me, was most solicitous about my injury, and really was very entertaining. But I was uneasy. Edith was also sitting the dance out and with Kenneth Lawrence.

"Mr. Lawrence, doesn't dance—I can't. Why don't you bring him over here, and you dance with Edith?" I suggested.

"Great idea. I forgot he didn't dance. Queer sort of fish. You are sure he won't bore you—that you want him?"

"Quite."

I watched very closely when he spoke to Kenneth, and was positive I saw something that looked like pleasure leap into the Californian's face. But it was gone so quickly I couldn't be quite sure. Edith seemed to hesitate a little, and looked at him; but, from the gestures, I made out he told her to go. She couldn't resist a dance, so she laid her hand on Jack's arm, and Kenneth came over to me.

"Not dancing tonight?" he asked. "May I ask why?"

"Blistered feet," I replied, laughing, and at the same time putting my feet where he could not see too plainly the shabby slippers.

"You poor child! I feel like a brute." But the look he gave me made the words almost a caress.

The Daring Test made by Thomas A. Edison

This drawing is from an actual photograph. It shows the memorable scene on November 25th, in the State Armory at Albany, when Mr. Edison made the test which was heralded all over the country as marking a new epoch in music. Six thousand teachers, principals and officials of New York State public schools, sat spell-bound as they heard Mario Laurenti, world-famed baritone of the Metropolitan Opera Company, sing in direct comparison with the New Edison's RE-CREATION of his magnificent voice.

Laurenti stood beside the New Edison. His voice filled the auditorium. The audience surrendered itself to the baritone's inspired artistry. Suddenly there was a stir, a perplexed rubbing of eyes. Laurenti's voice, undiminished in quality and beauty, continued to reach every corner of the vast auditorium, but his lips had ceased to move. The cabinet at his side had taken up the song, and was matching his voice so perfectly that the human ear was not aware that Laurenti had ceased to sing.

By a test, as convincing as it was daring, the New Edison proved that its RE-CREATION of music had attained perfect realism.

Come in and hear the History-Making Phonograph. Its new art triumphed in a daring test before 6,000 Empire State Teachers.

We are able to issue this invitation because we have an instrument exactly like that used in the dramatic test at Albany. It is a duplicate of the original Official Laboratory Model developed by Mr. Edison at a cost of three million dollars.

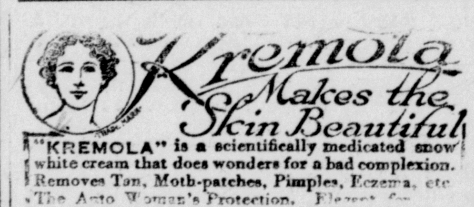

We guarantee that this instrument will sustain each and every test made at Albany. Come in and hear it. Ask for the Realism Test. Also ask for your copy of the brochure "Edison and Music"—written by one of Mr. Edison's right hand men.
